Figure 1: Schematic diagram of the experimental layout. The diagram shows a 5x5 grid of seats for each of the four groups. The groups are: 研究生 (Graduate), 能源一 (Energy 1), 經管一 (Management 1), 資工一 (Information Engineering 1), and 光電一 (Optoelectronics 1). The seats are color-coded: red for Graduate, orange for Energy 1, yellow for Management 1, blue for Information Engineering 1, and green for Optoelectronics 1. The layout is divided into two sections: the top section (A-E rows) and the bottom section (F-L rows). The top section is further divided into two columns (left and right) by a central aisle. The bottom section is also divided into two columns (left and right) by a central aisle. The seats are numbered 1 to 5 in each row, and the groups are labeled on the left side of each column.
